

CONSTELLATION CARDS

Produced by Teach Beside Me.

These cards are not to be used for commercial purposes.

Clipart from justusteachers.com

These cards can be printed and used to learn the constellations. The Constellation is below the image. If you want to make them into flashcards you can leave the two connected and fold them. You can also cut them apart and use them as a matching game. Some of the constellations were flipped 90° to fit into the space.
